Make a Phone Call

1) Reframing the Question

- a. How to make a phone call to my mother about where I am?

2) Identifying the metrics:

1. Do I know her availability (is she free to talk)?
2. Is my phone charged and do I have a good signal?
3. Do I need to use mobile data or Wi-Fi calling?
4. What time is appropriate to call?
5. Do I need to ask her anything specific or just check in?
6. Should I use a voice call or video call?
7. Does my mother prefer text messaging over calls at certain times?
8. Should I call through WhatsApp or regular phone service?
9. How long do I expect the call to last?
10. Do I need to consider time zone differences (if applicable)?
11. Is there anything I need to prepare before the call (like updates or questions)?

3) Retrieve/Collect the data:

1. I check my phone for signal strength and battery percentage.
2. I verify that I have credit or a stable Wi-Fi connection if using internet-based calling.
3. My mother prefers me to call whenever. Except during the afternoon and on the weekends. From 3-5 she normally takes a nap.
4. She usually uses WhatsApp for video calls or phone calls as well.
5. Calls typically last about 5-10 minutes unless there's a special topic to discuss.
6. If she's busy, calls last sometimes less than 5 minutes, so I need to make it as short and informative as possible.
- 7.

4) Data preparation/Organize the Data

1. 5 minutes call
2. On the weekday before 3 and after 5
3. Call multiple times if she doesn't pick up
4. If she doesn't pick up then she either busy or taking a nap
5. Find a quiet space where I can talk without interruptions.

6. Ensure the phone speaker or headphones are working well.

5) Doing the analysis/Find the relationship

1. If my mother is with my dad, the call should be brief and to the point.
2. She prefers shorter conversations if it about what i am doing or where i am at and to get to the point
3. Evening times work best for regular calls since she's finished with household tasks.

6) What's the story or find the relationship

When making a call to my mother, I need to consider her availability, the best time to call, and whether the topic requires a long conversation or a quick check-in. I usually call around 10pm over voice call to notify where i am.

7) Presentation/Visualization:
